DETAILED ACTION

REASONS FOR ALLOWANCE

Claim 67 is allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose the combination of the process steps of forming a container capacitor recited in the base claim 67, including the combination of the process step comprising: masking a first portion of the insulating layer; etching a second portion of the insulating layer from a first region of the exterior surface of the cup-shaped bottom electrode to expose the first region of the exterior surface, such that the insulating layer remains in contact with an entire vertical height of a remaining region of the exterior surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
